FOYSAL HOSSIEN

MERN STACK DEVELOPER

Dhaka, Bangladesh | +880 1880-975734 | foysalhossien77@gmail.com
github.com/foysaliio | linkedin.com/in/foysaliio

CAREER OBJECTIVE

I've built and deployed React and Next.js projects with API integration, protected routes, and MongoDB-backed authentication. I'm now focusing more deeply on backend development with Node.js, Express.js, MongoDB, and Mongoose, particularly REST APIs and CRUD operations. I want to contribute across the stack, learn from code reviews, and keep improving by building real features.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js (App Router), Tailwind CSS, responsive layouts

Backend & APIs: Node.js, Express.js, REST APIs, CRUD operations, middleware, async/await

Database & Auth: MongoDB, MongoDB Atlas, Mongoose, Better Auth, protected routes

Libraries & Tools: React Context, TanStack Query, React Hook Form, Zod, Git, GitHub, Vercel

SELECTED PROJECTS

Bazar Dor | Market Price Tracker

Live Demo | **GitHub**

Next.js · TypeScript · Better Auth · MongoDB Atlas

- Built a market-price app with a Next.js frontend, API-driven listings, sorting, and price comparisons.
- Connected Better Auth to MongoDB Atlas for email/social login, user sessions, and protected routes.
- Implemented profile updates stored in MongoDB and handled loading states across product and account pages.

FitLog | Workout Planner

Live Demo | **GitHub**

Next.js · React · TypeScript · Tailwind CSS

- Developed an API-powered workout planner with search, exercise details, and plan management.
- Managed saved, planned, and completed workouts with React Context and localStorage persistence.
- Handled loading/error states, sorting, duplicate checks, and workout plan limits in the interface.

Dev Stack | Technology Stack Builder

Live Demo | **GitHub**

React · TypeScript · Tailwind CSS

- Built a React and TypeScript technology explorer using reusable cards and interactive side panels.
- Loaded technology data from JSON and managed add/remove selections through React state.
- Implemented duplicate prevention, selected counts, a clear-stack action, and loading feedback.

EDUCATION

Diploma in Engineering (Electronics) | Dhaka Polytechnic Institute

CGPA: 3.41 / 4.00 | 2025

CERTIFICATIONS & TRAINING

NSDA: Web Design and Development for Freelancing - Level 3

Udemy: The Complete JavaScript Course - Jonas Schmedtmann

Udemy: React - The Complete Guide - Maximilian Schwarzmüller

Programming Hero: AI-Driven Full Stack Web Engineering Program (Ongoing)
